

# BASIC RIFLE MARKSMANSHIP

*The Basic Rifle Marksmanship (BRM) courseware package provides interactive learning tools to assist in the training of the Four Fundamentals of Marksmanship. To effectively use a weapon, marksmanship must be mastered from the basics of rifle marksmanship to the advanced stages of target engagement. In this software shooters will be taken through the Four Fundamentals of Marksmanship, enhancing a shooter's capability to acquire and engage a target. Understanding how a weapon functions is a vital step to becoming an expert with it. Included in the courseware is a fully animated cut-away view of an M16 rifle showing the cyclic actions and a virtual 25 meter M16 zeroing range.*

### The Four Fundamentals of Marksmanship

The soldier must understand and apply the four key fundamentals before he approaches the firing line. He must establish a steady position allowing observation of the target. He must aim the rifle at the target by aligning the sight system, and fire the rifle without disturbing this alignment by improper breathing or during trigger squeeze. Applying these four fundamentals rapidly and consistently is the integrated act of firing. These skills are known collectively as the four fundamentals.

1. Steady Position
2. Aiming
3. Breath Control
4. Trigger Squeeze
